

ENHANCED WORKER SAFETY IN VERTICAL STORING LEVELER APPLICATIONS

MOVEMENT DETECTED IN THE PIT AREA INDICATES THE VERTICAL LEVELER TO IMMEDIATELY STOP

VERTICAL LEVELER WILL NOT LOWER UNTIL PIT AREA IS FREE & CLEAR OF MOVING PEOPLE/OBSTRUCTIONS

NO MOTION DETECTED IN THE DOCK PIT AREA INDICATES IT IS SAFE TO LOWER THE VERTICAL LEVELER

HOW IT WORKS

- Scans & Monitors the Dock Pit Area
- Vertical Leveler will Lower ONLY if No Motion is Detected in the Dock Pit Area
- If Any Movement is Detected in the Pit (While Leveler is Lowering) the Vertical Leveler Immediately Stops
- Vertical Leveler will not Lower Until Pit Area is Free & Clear of Moving People/Obstructions
- Optional Audible Alarm
