

TLHR RETROFIT™

THE BETTER LEVELER

ELIMINATE END-LOADING & ENHANCE SAFETY

TELESCOPING-LIP™ HORIZONTAL
STORING DOCK LEVELER

NORDOCK
AN INTEGRATED WAREHOUSE SOLUTIONS BRAND

FASTER, MORE PRECISE, SAFER & THE INDUSTRY'S BEST RETROFIT™ SOLUTION

The TLHR 8' RETROFIT™ from NORDOCK® is the best available solution for under performing docks & replacing existing dock pits. Retrofits into a standard pit (8' length and 19" depth), which means you no longer have to cut a new pit anywhere you have standard-size pit levelers.

Standard hinged-lip levelers can be a challenge with end-loaded trailers. With it's telescoping-lip, the TLHR RETROFIT™ makes loading & unloading cubed-out trailers easy, quick, and damage-free. Unlike vertical storing levelers, the TELESCOPING-LIP™ leveler eliminates the likelihood of a moving forklift impacting the stored leveler & provides additional and valuable floor space between & in front of the dock doors.

TLHR RETROFIT™ FEATURES & BENEFITS

- **Retrofit Capability** Available to Fit into Existing Docks without Recutting the Pit
- **TELESCOPING-LIP™ Eliminates End Load Issues** with Precise Lip Control, Avoiding Cargo Damage Forever
- **Continuous Fixed Rear Hinge** Provides Smooth Transfer with No Pinch Point
- Flush Storing **Improves Sight lines** and **Increases Floor Space** for Safe Cross Traffic Operation and Staging Area
- **Reduces Energy Loss & Dock Contamination**
- **No Run-Off Guards** Eliminate Impact and Damage to Fork Lift Tires and Improves Maneuvering
- **Eliminates “Stuck Truck”** – Forklift becoming Stuck between Trailer Bed and Loading Dock
- **Eliminates Costly Installation** of Bollards, Stanchions and Guardrails
- NEMA 12 Control Panel Enclosure with Operator Instructions Printed on Cover
- 20" High **Laminated Dock Bumpers Included**

IMPROVE SIGHTLINES, INCREASE FLOOR SPACE & SAVINGS

The TLHR RETROFIT™ horizontal storing TELESCOPING-LIP™ dock leveler stores flush to the dock floor, improving driver sight lines and creating a clear open space for cross traffic operation and reduces installation costs by eliminating the need for guardrails, burying conduits, bollards and stanchions.

SPECIFICATIONS

The TLHR RETROFIT™ comes with a standard 20" lip extension on 8' units and a 12" above/below service range with available options to increase the lip beyond 20". TLHR RETROFIT™ models are available in load capacities of 30,000 to 80,000 lbs.

OPERATION

Simple push button controls enable the operator to raise and lower the ramp as well as control the extending and retracting of the lip at any time during operation for quick cycles and end load access. Dual maintenance stands for the decks are provided for added security & convenience.

REDUCED DAMAGE, LABOR COSTS & PERSONAL INJURY

The TLHR RETROFIT™ provides infinite end load access with precise lip extension control, safely bridging the gap between deck & trailer bed for forklift access. Completely avoids all damage to cargo &/or forklift.

Hand unloading is eliminated forever – resulting in labor savings & a safer working environment.

ELECTRICAL

External wall or stand-mounted totally enclosed non-ventilated 1.5 HP power unit available in all voltages. NEMA 12 dust tight control panel with motor starter, push button controls, emergency stop and operator instructions on hinged cover.

SYSTEM INTEGRATION

Various equipment integration systems are available to provide a safe sequence of operation. The dock leveler, door, vehicle restraint, air seal and communication lights should all be integrated to ensure an optimum safety system.

TELESCOPING-LIP™ levelers come standard with the first true 360 degree BUMPER-TO-BUMPER™ 4-Sided Pit Seal
