

NORDOCK®
DEDICATED PEOPLE ~ SUPERIOR PRODUCTS

FULL-LINE BROCHURE

NORDOCK[®]

INNOVATIVE DESIGNS BUILT TO LAST

NORDOCK[®] manufactures and distributes a full line of loading dock equipment, including pit-style, vertical storing and telescoping lip dock levelers, vehicle restraints, dock lifts, and in-plant lifts, truck levelers, dock seals and shelters, and a comprehensive line of accessories. In addition, NORDOCK[®] has the unique capability to design and manufacture specialty engineered products for the loading dock, safety, and lift applications.

DOCK LEVELERS

HYDRAULIC DOCK LEVELERS

Experience smooth, effortless operation with NORDOCK® Hydraulic Levelers—engineered for unbeatable strength, reliability, & ease. Each unit includes a factory-tested power system, sealed all-voltage motor, & heavy-duty regenerative cylinders with chrome rods & high-pressure seals.

Backed by industry-best warranties—**20 Years on Hinges, 10 Structural, & 5 Hydraulic**—this dock technology is built to outlast & outperform.

BUILT TOUGH FOR TROUBLE FREE OPERATION

CONSTRUCTOR™ (Model CH)

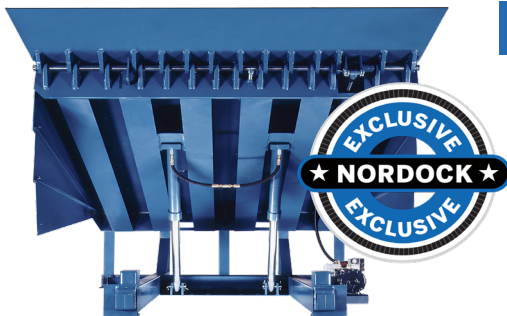

The Model CH is designed with push button efficiency delivering an ergonomic solution with patented dual function hydraulics & fewer parts than any other dock leveler. Available in capacities of **30,000 to 45,000 Lbs.**

BUILT TO WITHSTAND THE TOUGHEST LOADS

HEAVY-DUTY™ (Model NH)

The Model NH is fully featured with hydraulic powered deck and lip functions controlled by a single push button. Available in capacities of **25,000 to 50,000 Lbs.**

THE HIGHEST CAPACITY LEVELER AVAILABLE

SUPER-DUTY™ (Model SD)

The Model SD fully hydraulic levelers are built to handle the really tough applications found in the paper, steel and heavy manufacturing industries. Available in capacities of **60,000 to 160,000 Lbs.**

VERTICAL STORAGE. MAXIMUM CLEANLINESS

Vertical Storing Leveler (Model NV)

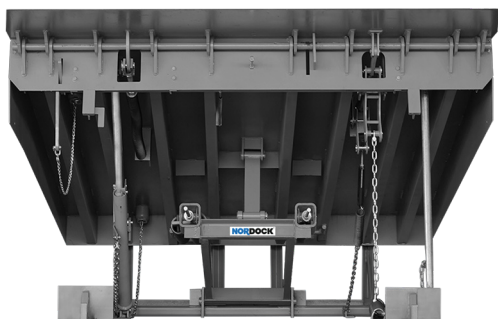

The Model NV vertical storing dock leveler provides maximum energy efficiency, cleanliness, and are ideal for climate controlled facilities in the food, beverage and pharmaceutical industries. Available in load capacities of **25,000 to 60,000 Lbs.**

MECHANICAL DOCK LEVELERS

The NORDOCK® ELEMENT™ Series Mechanical Leveler redefines durability, performance, & value. Built to endure the toughest high-traffic loading docks, it fits a wide range of applications, from new builds to site upgrades.

With over 50K cycle tests & rigorous dynamic load testing, it exceeds the highest durability standards, delivering long-lasting, reliable performance.

FLIP YOUR EXPECTATIONS

ELEMENT™ (Model NMF)

The Model NMF delivers reliable, efficient performance with its flip lip design, ensuring smooth, safe loading in high-traffic docks. Designed for strength, longevity, & low-maintenance operation—perfect for demanding loading environments. Available in load capacities of **30,000 to 50,000 Lbs.**

AIR-POWERED DOCK LEVELERS

NORDOCK® advances loading dock efficiency with patented 'NEXT GENERATION-AIR™' technology that is truly revolutionary.

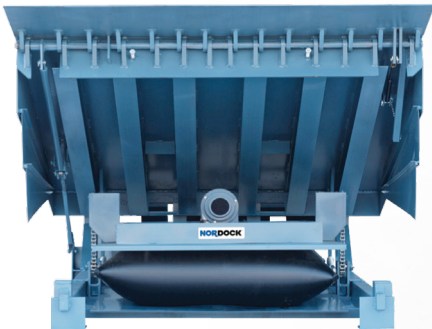

AIRDOCK® levelers are easy to install, operated by push button, and come with unmatched strength, standard features and comprehensive **20-Year Hinge** and **10-Year Structural** warranties that set a higher standard of excellence.

SMART. AFFORDABLE. ECO-FRIENDLY

AIRDOCK® CONSTRUCTOR™ (Model CA)

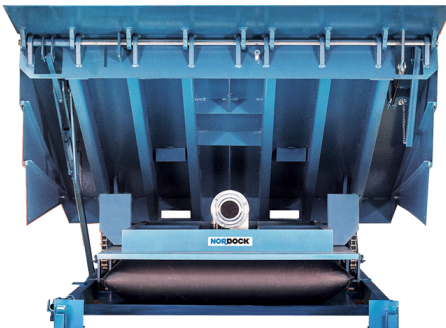

The Model CA offers powerful push-button performance, easy installation, & unmatched durability—backed by top-tier features & comprehensive warranties. Available in **25,000 to 45,000 Lb.** capacities & multiple platform sizes to meet your dock's needs.

THE SMART CHOICE FOR TOUGH DOCKS

AIRDOCK® INDUSTRIAL™ (Model AD)

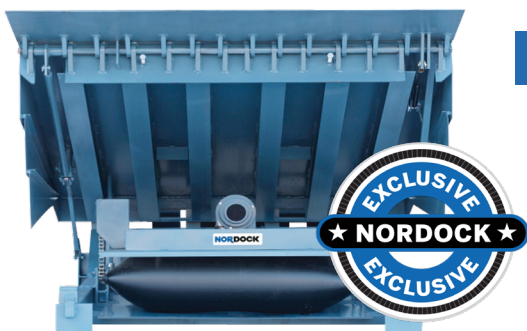

The Model AD delivers unmatched durability & ROI for demanding loading docks, with a self-contained, floor-free lift system for easy installation & long-term reliability. Available in **25,000–50,000 Lb.** capacities & multiple platform sizes to fit your operation perfectly.

THE STRONGEST AIR POWERED LEVELER

AIRDOCK® SUPER-DUTY™ (Model SA)

The Model SA is designed with push-button operation, & easy installation. Built for heavy-duty performance where others can't compete, with an unmatched **60,000 Lb.** capacity.

TELESCOPING-LIP DOCK LEVELERS

NORDOCK® TELESCOPING-LIP™ dock levelers are an innovative and practical solution to common end loading issues in material handling. They are a superior energy efficient alternative to vertical storing levelers allowing the leveler to fully retract so the insulated dock doors can store against the pit floor.

The telescoping lip allows for precise positioning onto the trailer bed for safer, more efficient loading and prevention of product and forklift damage.

THE ONLY VERTICAL TELESCOPING-LIP LEVELER

Vertical Leveler with TELESCOPING-LIP™ (Model NVTL)

The Model NVTL's patented design eliminates end load interference issues forever and provides superior sealing with the exclusive **BUMPER-TO-BUMPER™** pit seal fourth side closure.

ENERGY-EFFICIENT VERTICAL ALTERNATIVE

Horizontal Leveler with TELESCOPING-LIP™ (Model TLH)

The Model TLH offers a smarter alternative to vertical levelers storing horizontally for faster cycles, better climate control, & safe, precise end-load access with its TELESCOPING-LIP™.

INDUSTRY BEST RETROFIT SOLUTION

(TLHR) RETROFIT™ Leveler with TELESCOPING-LIP™

The TLHR 8' RETROFIT™ is the best available solution for under performing docks & replacing existing dock pits. Easily retrofits into standard 8' x 19" pits—no cutting, no concrete, no extra costs.

EDGE MOUNT DOCK LEVELERS

NORDOCK® PUSH-BUTTON™ Series edge of dock levelers offer a cost-effective, low-maintenance solution for docks without a conventional pit. Designed to service trailers with minimal height differences, these permanently mounted levelers are a safer, more efficient alternative to portable dock plates and boards—perfect for streamlining your loading operation with push-button ease.

DESIGNED FOR LONGER LIFE. NO ADJUSTMENTS

PUSH-BUTTON™ Series - (Model EM)

The Model EM handles up to **50,000 Lbs.**, featuring a self-cleaning front hinge, maintenance-free gas spring system, and automatic return to stored position. Reliable. Durable. Zero hassle.

ULTIMATE IN STRENGTH, EASE OF USE, & RELIABILITY

PUSH-BUTTON™ Series - (Model EH)

The Model EH includes a lift cylinder, mechanical lip extension and is available in capacities of **20,000 and 30,000 Lbs.**

BEST CHOICE IN EDGE OF DOCK SOLUTIONS

PUSH-BUTTON™ Series - (Model EFH)

The Model EFH is available in capacities up to **80,000 Lbs.** with single push button activation with auto return to dock.

SPECIALTY DOCK LEVELERS

NORDOCK® Specialty dock levelers offer a comprehensive range of fully customizable vertical & horizontal storing rail dock levelers. Our products include extra-wide levelers & solutions for those who prefer not to, or cannot, install a conventional recessed pit in their facility.

Whether you're looking for a custom design or a specific functionality, NORDOCK® provides reliable, high-quality specialty dock levelers built to meet your unique requirements.

ALLOWS FULL ACCESS FOR THE WIDEST LOADS

XTRA-WIDE™ (Model XW)

The Model XW delivers full below-floor access for extra-wide loads no conventional leveler can match it. Automatic hydraulic bumpers & an optional Telescoping-Lip handle any loading challenge with ease. Available in capacities of **50,000 to 100,000 Lbs.**

MAXIMIZE RAILCAR PERFORMANCE

BOXCAR™ Hydraulic Powered Rail Dock Leveler (Model NR)

The Model NR is designed for safe & efficient loading & unloading of rail cars. Each unit is custom built to suit each rail position, door width & desired capacity.

ERGONOMIC RAIL SLIDING LIP SOLUTION

BOXCAR™ Sliding Lip Hydraulic Rail Dock Leveler (Model SRD)

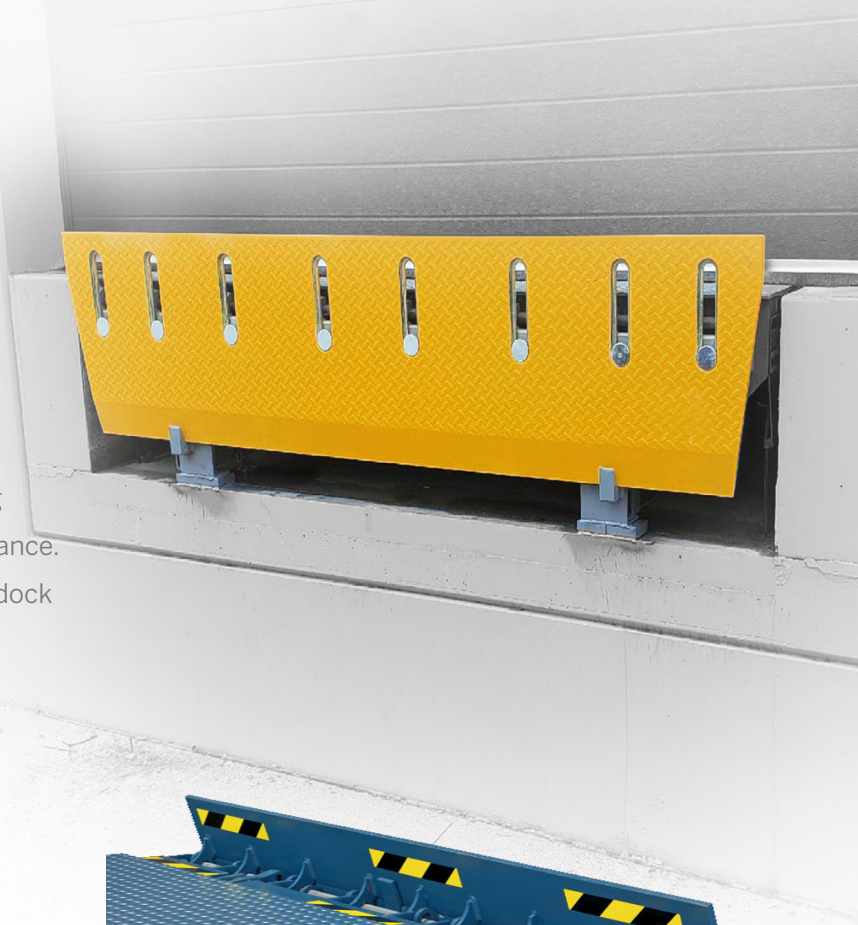

The Model SRD is equipped with all the standard performance features needed for safe and efficient loading and unloading of rail cars.

SPECIALTY LIP OPTIONS

NORDOCK® proudly introduces an exclusive line of specialty lip options, designed to deliver superior performance, advanced safety, & ultimate versatility.

Engineered for demanding environments, NORDOCK®'s exclusive lip options offer the best upgrades—enhancing dock safety, preventing accidents, & optimizing performance. Don't just meet safety expectations—exceed them with dock upgrades engineered to perform under pressure.

DUAL-DUTY™ LIP

A cost-effective lip option for applications needing reliable, low-maintenance dock levelers with manual control. The patented hydraulic system uses a single cylinder to lift the deck & extend the lip—activated with just the push of a button.

BARRIER™ LIP

The STAY-PUT™ barrier lip upgrade prevents accidental drive-offs, even below dock, & withstands a 10,000 lb. forklift at 4 mph. With capacities up to 160,000 lbs., it's the ultimate safety upgrade for demanding dock operations.

FALL-SAFE™ SLIDING BARRIER LIP

The FALL-SAFE™ patented lip upgrade delivers superior strength & safety with its automatic sliding barrier that prevents falls from vacant docks. The ultimate upgrade for dock protection & performance.

FLEX-LIP®

Patented FLEX-LIP® keeps the lip perfectly level even below dock—ensuring the smoothest, safest truck-to-dock transition. The smarter upgrade that protects your dock & delivers unmatched durability.

VEHICLE RESTRAINTS

ROTATING HOOK IMPACT STYLE VEHICLE RESTRAINTS

Built to prevent unscheduled departures, trailer creep, and tip-overs, the NORDOCK® AR-10K and AR-20K use a heavy-duty rotating hook to secure a trailer's Rear Impact Guard (RIG) with over **32,000 Lbs. of restraining force** and **100,000+ Lbs. of mounting force**.

Designed for high-traffic docks and demanding operations, these restraints deliver powerful performance, enhanced safety, and the reliability you expect from NORDOCK®.

Offers the Safest, Strongest, & Best Features in the Industry!

SMART-HOOK® AR-10K

NORDOCK® SMART-HOOK® Series AR-10K is a premium automatic vehicle restraint designed to secure trucks at the loading dock by using a large rotating hook to engage a trailer's rear impact guard (RIG).

SMART-HOOK® AR-20K

The SMART-HOOK® Series AR-20K offers the most enhanced loading dock safety and performance in the industry with its patented NO-PINCH™ Auxiliary Lock System, securing all trailers with rear impact guard obstructions.

NON-IMPACT VEHICLE RESTRAINTS

Engineered for ultimate safety and performance, NORDOCK® Non-Impact Restraints are the reliable solution for securing virtually any trailer at your loading dock.

Whether manually operated or fully automatic, these vertically operated restraints deliver over **32,000 lbs. of restraining force**, providing peace of mind and unmatched protection during loading and unloading.

Improves Dock Safety with Over 32K Lbs. of Restraining Force & 100K Lbs. of Mounting Force!

TRUCK-LOCK® (MODEL MTL)

The MTL Non-Impact Manual TRUCK-LOCK® is an affordable manually operated unit designed to secure a truck at the loading dock by engaging the rear impact guard with a large barrier.

TRUCK-LOCK® (MODEL ATL)

The ATL Model Non-Impact TRUCK-LOCK® is an automatic unit that activates & stores the spring-loaded HYDRA-FLOAT™ barrier via push button control.

UNOBSTRUCTED AND TROUBLE-FREE ACCESS

PIT-HOOK™ Automatic Non-Impact - (Model PH-3000)

The PIT-HOOK™ PH-3000 is a premium automatic hydraulic restraint featuring a recessed hook that stores beneath the dock—providing unobstructed access for lift gate trailers and smaller delivery vehicles.

WHEEL RESTRAINTS

NORDOCK® premium Wheel Restraints provide a reliable solution for securing transport vehicles by engaging one or more wheels to prevent accidental movement during loading or unloading. Designed for maximum safety & flexibility, they help protect personnel, equipment, & goods at the dock.

SYNCHRONIZED INTERLOCK CAPABLE COMMUNICATION

DOK-CHOCK™ - (Model DC-300)

The Model DC-300's superior design helps prevent movement & provides synchronized interlock capable communication to both truck driver & dock personnel.

UNIVERSAL DESIGN STOPS TRAILER PULL-AWAY

POSI-CHOCK™ - (Model PC-6000)

The Model PC-6000 is a premium automatic vehicle restraint designed to secure a trailer at the loading dock by engaging the wheel with a large steel chock.

SURFACE-MOUNTED FOR EASY, ALL-WEATHER USE

SHUR-LOK™ - (Model SL-7000)

The Model SL-7000 is a premium automatic surface mounted hydraulic powered vehicle restraint that seeks out & restrains the wheel of the trailer.

SEALS & SHELTERS

WEARTOUGH® DOCK SEALS

NORDOCK® Dock Seals deliver a tight, weatherproof barrier that protects your facility from energy loss, dust, and pests. Built with durable materials, they improve loading dock efficiency and worker safety while extending the life of your dock equipment.

Choose NORDOCK® for reliable, long-lasting performance that keeps your operations running smoothly.

VELCRO-SPLIT HEAD CURTAIN

WEARTOUGH® (MODEL FC)

Provides a tight seal with memory foam side pads & a curtain style header suitable for doors that are higher than the trailers serviced.

MAXIMUM WEATHER-TIGHT SEAL

WEARTOUGH® (MODEL FP)

Provides exceptional protection for personnel & cargo while loading & unloading. The memory foam core side & fixed header provides a tight seal.

TRAILER DOOR GAP SEAL

SEAL-TITE™ (MODEL STP)

Eliminates air gaps from swing-out trailer doors for a tighter seal and better energy efficiency. Available with a stationary head pad for added protection.

TRAILER DOOR GAP COMPRESSION SEAL

SEAL TITE™ (MODEL STC)

Engineered to block contaminants with gap sealing compression foam and a head curtain delivering a cleaner, more secure loading dock.

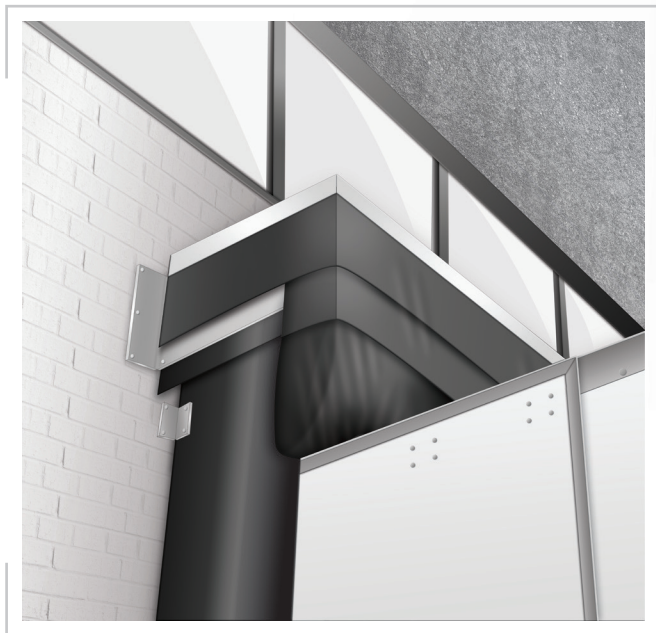

RAIN DIVERTER DOCK SEALS

NORDOCK® Rain Diverters are the ultimate solution to protect your loading docks from rainwater damage and improve safety.

Designed to channel water away from dock openings, they prevent puddles, slippery surfaces, and potential structural damage.

Built tough with durable materials, NORDOCK® Rain Diverters help maintain a clean, dry, and safe work environment—reducing downtime and costly repairs.

(MODEL RS-5000)

RAINSHIELD™ TRAILER TOP SEAL

Designed for decline approach applications, it diverts rain away from the loading area while sealing across the full trailer width. Built with ultra-durable XT-1000 fabric, it installs easily above existing dock seals for enhanced protection and performance.

(MODEL RS-9000)

RAINSTOP™ TRAILER TOP SEAL

The patented RAINSTOP™ Series shields your dock from water, wind, and contaminants—protecting products, people, and equipment. Its rugged design features XT-1000 super fabric on impact zones and multiple lobe options to seal trailers as low as 11' 3".

WEARTOUGH® DOCK SHELTERS

Superior in versatility, performance, & efficiency, NORDOCK® offers the industry's best Dock Shelters. Designed to create a tight, durable seal around trailers, protect your facility from weather, dust, and energy loss while boosting loading dock safety & productivity.

Choose NORDOCK® Dock Shelters for unmatched quality & reliability tailored to your operation's needs.

MIDNIGHT™ ULTIMATE DOCK SHELTER

FOAMFRAME™ (MODEL FF-RS9)

Provides the ultimate light blocking effect to protect personnel & cargo from infiltration of weather, dirt & pests of all kinds.

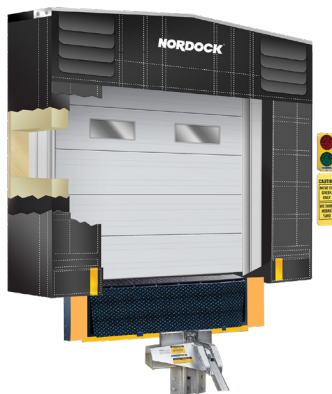

HEAVY-DUTY CURTAIN STYLE SHELTER

(MODEL FL)

Provides exceptional protection for personnel & cargo while loading & unloading. The memory foam core side & fixed header provides a tight seal.

IMPACT-RESISTANT SHELTER

FOAMFRAME™ (MODEL FF)

Features memory core foam sides that prevent damage from off-center loading. Vertical curtains with stiffeners ensure a superior weathertight seal.

RIGID FRAME SHELTER

(MODEL DS)

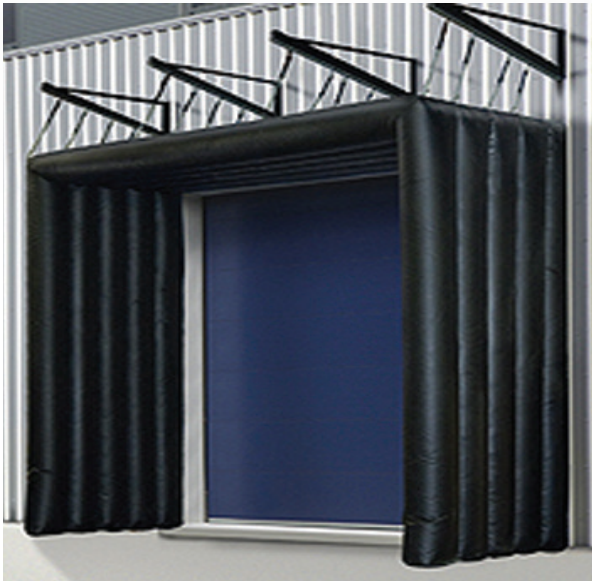

Provides maximum dock protection for a wide range of trailer sizes, ensuring a tight seal for improved energy efficiency & product safety.

SPECIALTY DOCK SHELTERS

NORDOCK® Specialty Shelters are expertly engineered to provide superior protection during standard boxcar loading and unloading operations. Built for durability and performance, these shelters create a secure, weather-resistant seal that enhances safety, reduces energy loss, and protects your facility and goods.

(MODEL IR-650) BOXCAR™ INFLATABLE RAIL SHELTER

RELIABLE RAILCAR PROTECTION

Provides instant, weathertight protection as soon as the rail car arrives. The BOXCAR™ IR-650 inflates automatically, featuring durable fabric, quick retraction, & an easy on/off pilot light. Custom sizes & four-sided options with breakaway panels available.

(MODEL IR-700) BOXCAR™ INFLATABLE RAIL SHELTER

SUPERIOR RAILCAR PROTECTION

The BOXCAR™ is a patented 4-sided shelter with retractable, gravity-return design. Built to maximize protection for personnel & cargo during rail car loading, with a unique support system for unmatched performance & safety.

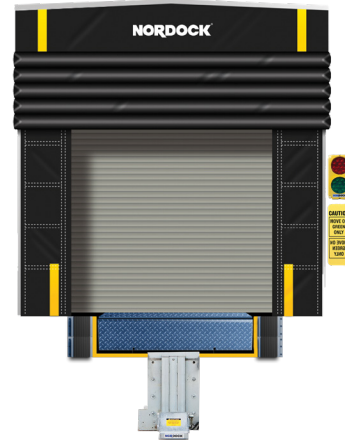

THE GO-TO FOR VERSATILE PROTECTION

(MODEL IS-950) DOCK SHELTER

The IS-950 Series inflatable dock shelter pushes tight against the side and the top of the trailer to keep out inclement weather.

FOAMFRAME™ INFLATABLE HEADER

(MODEL FFI-750) COMBINATION SHELTER

The FFI-750 Series is an inflatable header foam-sided shelter providing ultimate protection for personnel & cargo while loading & off-loading trailers.

MULTI-SEAL™ COMBINATION SHELTER

(MODEL MS)

Provides a tight seal with memory foam side pads and a curtain style header suitable for doors that are higher than the trailers serviced.

BUILT TO YIELD ON IMPACT

(MODEL RF) RETRACTAFRAME™

Provides exceptional protection for personnel & cargo while loading & unloading. The memory foam core side & fixed header provides a tight seal.

XT-1000 SUPER FABRIC

TOUGHEST FABRIC IN THE GAME. MAXIMUM SEAL & SHELTER LIFE.

With over 65,000 abrasion cycles and unmatched puncture resistance, NORDOCK's XT-1000 is built to handle the toughest dock seal & shelter demands. Proven performance—backed by a **3-Year Warranty**.

A large industrial lift, possibly a scissor lift or boom lift, is shown in a warehouse setting. The lift is blue and white, with a platform extended. A person is visible on the platform. The background shows the warehouse structure with steel beams and lights. A "CAUTION" sign is visible on a beam in the background. The text "LIFTS & SPECIALTY" is overlaid in white, centered, between two horizontal white lines.

LIFTS & SPECIALTY

LIFTS & SPECIALTY

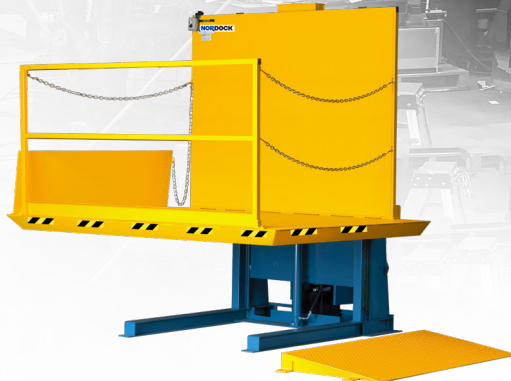

From dock lifts and scissor lifts to ergonomic and truck lifts, NORDOCK® delivers powerful, reliable material handling solutions — backed by our exclusive ‘Guaranteed to Outperform’ warranty.

With decades of engineering expertise, we design custom lifts in virtually any size or capacity — from 1,000 to 100,000 lbs. — built to handle the toughest environments and applications.

DOCK-LIFT™ SCISSOR LIFT

Provides a safe, reliable lifting solution for ground level applications.

MAST-GUIDE™ PLATFORM LIFT

Hydraulic low profile lift with superb stability without the need for a below ground pit.

ERGONOMIC™ LIFT TILT ROTATE

Ideal positioning equipment for a multitude of work tasks.

TRUCK-LIFT™ TRUCK LEVELER

Lifts all types of trailers to proper dock height for optimum service. 60,000 lb. lift capacity.

HI-LIFT™ DOUBLE SCISSOR LIFT

Available in any custom size, capacity & travel to suit project requirements.

INVERTERS & UP-ENDERS

Operator friendly & can be fully customized to provide safe & efficient material handling.

A blue Nordock truck is parked inside a warehouse. The overhead door is closed, and the truck is visible through the glass panels of the door. The truck has "NORDOCK" written on its side. The warehouse floor is concrete, and the walls are made of brick. The truck is positioned in the center of the frame, facing left. The text "SAFETY & CONTROLS" is overlaid on the image in white, bold, sans-serif font, centered horizontally and partially obscured by a blue horizontal band.

SAFETY & CONTROLS

NORDOCK

LOGI-SMART® CONTROL PANEL

Full System Integration With Master Control Panels

The LOGI-SMART™ Control System by NORDOCK® seamlessly integrates your entire operation for maximum efficiency, safety, and control.

Custom-configurable to your needs, it centralizes operations into a single point of control—saving time, reducing errors, and simplifying processes.

SAFETY PRODUCTS

NORDOCK® offers a complete line of safety solutions designed to prevent injuries, reduce damage, & promote a safer, more efficient workplace. From dock to door, we help you protect what matters most.

(MODEL ASG/MSG)
FALL-STOP™ BARRIER GATE

NORDOCK® SMART-HOOK® Series AR-10K is a premium automatic vehicle restraint designed to secure trucks at the loading dock by using a large rotating hook to engage a trailer's rear impact guard (RIG).

DOK-COM™ LED
COMMUNICATION SYSTEM

The FALL-STOP™ Series of electric and manual barrier gates provide added safety by preventing fall off at the loading dock. The lowered gate prevents forklift trucks from passing through an opening where a dangerous drop may occur.

ACCESSORIES & PARTS

REPLACEMENT PARTS

Everything You Need. One Name You Trust.

From the smallest fitting to essential components, NORDOCK® has the replacement parts you need —ready to ship and easy to order. Get what you need, when you need it—all in one place.

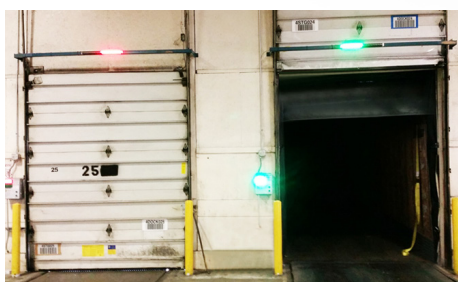

ACCESSORIES

From essential parts to premium accessories, NORDOCK® has it all in one place. Simplify sourcing, ensure compatibility, and keep your operation running at peak performance with unmatched quality.

HYDRAULIC CONVERSION KIT

Enables you to have the benefits of a hydraulic dock leveler & will reduce your maintenance costs & down time.

SUPER-COM™ SUPERIOR SIGNAL LIGHTS

Red/green LEDs sync with vehicle restraints for clear, energy-efficient signaling & safer trailer entry.

LED LOADING DOCK LIGHTS

Deliver brighter light, use less power, & last longer —cutting costs while protecting the environment.

Exclusive Steel
Spring Bumpers

IMPACT™ BUMPERS

Delivers the ultimate in building protection, performance, safeguarding docks, equipment, & facilities with durable solutions for every application.

Laminated Bumpers

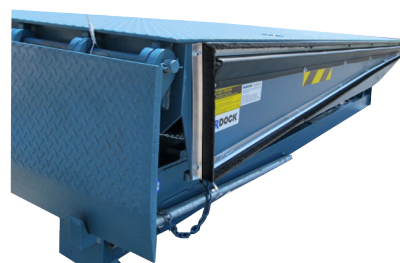

Molded Bumpers

Risers &
Build-Outs

Steel Face
Bumpers

ALL-SEAL™ ENERGY SAVER

The ultimate solution in energy efficiency delivering a superior seal throughout the dock levelers full range of motion above & below floor level.
